

# System Requirements – Network

To be able to install **WorkPLAN** in client/server mode, the following hardware is necessary for the network:

- A 100Mb/s (**minimum**) or Wi-Fi 802.11g/n compatible network card;
- Cat. 5 or 6 network cables;
- A 100Mb/s (**minimum**) compatible switch, router or hub;
- An IP address;
- A unique network ID on the network used.

# System Requirements – Server

For optimal performances, we recommend that you install a server which is exclusively dedicated to **WorkPLAN**.

Please note that it is your sole responsibility if you decide to run other applications on the same server. SESCOI will then assume no liability in the event of abnormal functioning.

For your reference, **WorkPLAN** system requirements are the following:

	Minimum required configuration	Recommended configuration
<b>Processor</b>	2GHz CPU (P4 or equivalent)	3GHz CPU (P4 or equivalent)
<b>RAM</b>	4GB	8GB
<b>Free Disk Space</b>	10GB	20GB
<b>Network</b>	TCP/IP	TCP/IP
<b>Display</b>	XGA (1024 x 768) monitor with 16 bit color display and small fonts (96 dpi)	SXGA (1280 x 1024 or higher resolution) monitor, with 16 bit or 32 bit color display and small fonts (96 dpi)
<b>Operating System</b>	Windows Server 2003 Windows Server 2008	Windows Server 2003 Windows Server 2008
<b>Other</b>	Administrative privileges on the system TCP/IP protocol No MySQL database server installed Internet Explorer 5.5 or higher (for the Getting Started tutorial) Microsoft Word 2000, 2003, 2007 or 2010 (if MS Word reports are to be printed) Microsoft Excel 2000, 2003, 2007 or 2010 (if costs are to be calculated with the Excel spreadsheet program) OpenOffice Calc V2 or higher (if costs are to be calculated with the OpenOffice spreadsheet program)	Administrative privileges on the system TCP/IP protocol No MySQL database server installed Internet Explorer 5.5 or higher (for the Getting Started tutorial) Microsoft Word 2000, 2003, 2007 or 2010 (if MS Word reports are to be printed) Microsoft Excel 2000, 2003, 2007 or 2010 (if costs are to be calculated with the Excel spreadsheet program) OpenOffice Calc V2 or higher (if costs are to be calculated with the OpenOffice spreadsheet program) MS Project 2003 (if the planning is to be exported)

# System Requirements – Client

For your reference, **WorkPLAN** system requirements are the following:

	<b>Minimum required configuration</b>	<b>Recommended configuration</b>
